

CA 18202 STSM

Development of the Thermodynamical data sets

2 weeks stay

Origin Institution:
Goce Delcev University,
Faculty of Medical Sci., S
N. Macedonia
Prof. Aleksandar Cvetkovski

Host Institution: Università degli
Studi di Parma - Department of
Chemistry, Life Sciences and
Environmental Sustainability Italy
Prof. Matteo Tegoni

**UNIVERSITÀ
DI PARMA**

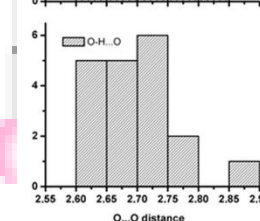

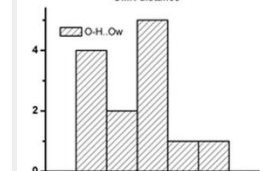

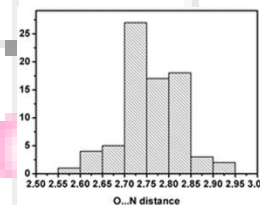

The purpose of the STSM was to perform structure-thermodynamics correlation analysis based on the crystallographic data deposited in Cambridge Crystallography Database (CCDC) for developing algorithms for calculation of the possible non-covalent interactions in molecular crystals.

Speeding the network for mutual collaboration

Sharing experiences

Building new friendships

Applying for joint projects

Parma

where cultural heritage
meets science & technology
